

§ 1412.104

7 CFR Ch. XIV (1–1–04 Edition)

counter-cyclical payments for the farm.

[67 FR 64751, Oct. 21, 2002, as amended at 68 FR 37939, June 26, 2003]

§ 1412.104 Appeals.

A producer may obtain reconsideration and review of any adverse determination made under this part in accordance with the appeal regulations found at parts 11 and 780 of this title.

Subpart B—Establishment of Base Acres for a Farm for Covered Commodities

SOURCE: 67 FR 64751, Oct. 21, 2002, unless otherwise noted.

§ 1412.201 Election of base acres.

(a) No later than April 1, 2003, owners on a farm may select one of the following methods to establish base acres for all covered commodities on the farm:

(1) Subject to the limitations in accordance with paragraph (d) of this section and § 1412.204, the base acres for each covered commodity shall be equal to the sum of the following:

(i) For each covered commodity, the 4-year average of the acreage planted to the covered commodity during each of the 1998 through 2001 crop years for harvest, grazing, haying, silage, or other similar purposes, as determined by the Secretary, plus

(ii) For each covered commodity, the 4-year average of the acreage prevented from being planted to covered commodities during each of the 1998 through 2001 crop years, for reasons beyond the control of the producer, as determined by the Deputy Administrator.

(2) The sum of the following:

(i) For each covered commodity, the contract acreage used to calculate the fiscal year 2002 Production Flexibility Contract payment for the covered commodity on the farm in accordance with the regulations of this part in effect on January 1, 2002 (see 7 CFR part 1412 revised as of January 1, 2002), plus

(ii) Subject to paragraphs (b) and (c) of this section, the 4-year average of eligible oilseed acreage on the farm for the 1998 through 2001 crop years, as determined in a manner provided in para-

graph (a)(1) of this section, except that the limitation in paragraph (d) of this section shall not apply.

(b) Subject to paragraph (c) of this section, the total acreage of soybeans and other oilseeds on the farm calculated in accordance with paragraph (a)(2)(ii) of this section shall not exceed:

(1) The total acreage determined in accordance with paragraph (a)(1) of this section for the crop year, minus

(2) The total contract acreage for all covered commodities determined in accordance with paragraph (a)(2)(i) of this section.

(c) If the calculation in paragraph (b) of this section results in a negative number, the soybean and other oilseed acreage on the farm for that crop year shall be zero for the purposes of determining the 4-year average, in accordance with paragraph (a)(2)(ii) of this section.

(d) If the acreage planted or prevented from being planted was devoted to a different covered commodity in the same crop year (other than a covered commodity produced under an established practice of double-cropping), the owner may select the commodity to be used for base purposes for that crop year in determining the 4-year average, but shall not select both the initial commodity and subsequent commodity.

(e)(1) An owner may increase the eligible acres of soybeans and other oilseeds on a farm by reducing the contract acreage determined in accordance with paragraph (a)(2)(i) of this section for one or more covered commodities on an acre-for-acre basis, except that the total base acreage for soybeans and each other oilseed on the farm may not exceed the four-year average of each oilseed determined under paragraph (a)(2)(ii) of this section.

(2) For the purpose of determining a 4-year average acreage for a farm under this section, any crop year in which a covered commodity was not planted shall not be excluded.

(f) For the purposes of this section, acreage planted, or prevented from being planted, to popcorn shall be considered as acreage planted to corn.
